RE: Proposed Parking Lot at
CENTRAL-DENISON ELEMENTARY SCHOOL
Lake Geneva, Wisconsin
Job No. 1508

Dear Mr. Robers:

The Lake Geneva Joint 1 School District wishes to construct a parking lot across the street from Central-Denison Elementary School at the northeast corner of Cook and Wisconsin Streets. Enclosed please find fifteen copies of the complete application packet requesting a Zoning Map Amendment for Planned Development Zoning including General Development and Precise Implementation Plans approval. Each packet contains the following.

- Application for Zoning Map Amendment for Planned Development Zoning including PD/GDP and PD/PIP Plans Approval.
- Current property owner's authorization letter dated 5-19-15
- Reimbursement of Services Agreement
- Planned Development Checklist for steps 1 through 4: Pre-Application, Concept Plan, GDP and PIP
- Location Map/Land Use Plan Map (11" x 17")
- Set of plans dated 6-19-15 including Sheets C-1 and C-2 (11" x 17")
- Existing Survey (11" x 17")
- Walworth County GIS Aerial Photograph with Topography
- Map of Property Owners within 300ft
- List of Property Owners within 300ft
- Mailing Label List of Property Owners within 300ft

An electronic copy of the above is also being submitted via email to your office.

The \$750.00 application fee is attached as well.

Two sets of 24" x 36" plans are also included.

The existing school building occupies Tax Key Parcel #ZOP 00092, at 900 Wisconsin Street between Cook and Madison Streets. The School District also owns a small off-street parking lot immediately north of the alley with frontage on Cook Street, Tax Key Parcel #ZOP 00087. Both parcels are presently zoned PD, Planned Development.

The limited off-street parking forces staff to park on the residential streets in the surrounding neighborhood. The School District has made an offer to purchase the property at the northeast corner of Cook and Wisconsin Streets with the intention of providing additional off-street parking for school staff. Tax Key Parcel #ZOP 00100 at 833 Wisconsin Street is presently zoned SR-4 and is occupied by a single family residence. Per the attached letter dated 5-19-15, the owners have authorized the School District to act on their behalf during the City approval process for the proposed parking lot.

The School District is requesting a Planned Development to demolish the existing residence and construct an off-site parking lot. In a separate application, the School District is requesting that the Future Land Use Map of the City of Lake Geneva Comprehensive Plan be amended to change Parcel number ZOP 00100 from Single Family-Urban to Institutional so that an off-site parking lot may be permitted on the property. The proposed amendment to the Comprehensive Plan will benefit the public and neighborhood by providing off-street parking for approximately 30 vehicles, reducing the need for school staff to park on the residential streets surrounding the school. The proposed off-street parking lot will also be available for use by the public on weekends and during the times that school is not in session, which will provide additional parking when the city needs it most.

A zoning amendment to Planned Development is necessary because the permitted and conditional uses allowed in the SR-4 District do not allow off-site parking and are too restrictive to permit the School District to develop a parking lot with enough stalls to be cost effective. Specifically, the following SR-4 non-residential intensity and bulk requirements cannot be met:

1. The 50% minimum landscape surface ratio cannot be met. The areas around the perimeter of the proposed parking lot shall be maintained as lawn areas. These areas at the four corners of the site will be required to remain open and available for snow removal. As such, no landscape plantings would survive in these areas.
2. The 40,000 SF minimum lot area (20,000 SF with a conditional use permit) cannot be met. The existing parcel is only 10,320 SF (60' X 172')
3. The 100 feet minimum lot width cannot be met. As noted above, the existing parcel is only 60 feet wide.
4. The 10 feet minimum paved surface setback from the street cannot be met along Cook Street.
5. The 10 feet minimum landscaped bufferyard along the east property line cannot be met. We are proposing a standard 5 feet side setback with a decorative wood fence.
6. The landscape requirements cannot be met for reasons stated in item 1 above.

7. We request exemption from the landscaped island or peninsula requirements. This would result in the loss of 3 much-needed parking stalls and create obstacles to efficient snow removal.
8. The 100 feet minimum distance between an access point and an intersection cannot be met. As noted above, the existing parcel is only 60 feet.
9. In lieu of a minimum access drive width of 18 feet, we are proposing an access drive/aisle width of 17.25', which is consistent with the city zoning ordinance parking layout dimensions for 75° angle parking.
10. In lieu of a minimum 25 feet throat length, we are proposing a minimum throat length of 22.33 feet as shown on the proposed site plan.
11. We request exemption from providing additional lighting on site. The proposed parking lot is immediately adjacent to existing angle parking along Cook Street between Wisconsin Street to the south and the public alley to the north. RE: Proposed Parking Lot at
CENTRAL-DENISON ELEMENTARY SCHOOL
Lake Geneva, Wisconsin

Dear Ms. Waswo:

The Lake Geneva Joint 1 School District wishes to construct a parking lot across the street from Central-Denison Elementary School at the northeast corner of Cook and Wisconsin Streets. The following items were previously submitted to Mr. Ken Robers, Zoning Administrator, and discussed at the staff meeting yesterday afternoon.

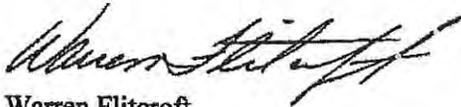

Concept Site Plan
Existing Survey
Walworth County GIS Aerial Photograph

The current owner(s) of the property have authorized Lake Geneva Joint 1 School District to act as their agent throughout any proceedings required by the City of Lake Geneva for review and approval of the proposed parking lot project. Signature(s) of the owner(s) are included below as evidence of this authorization.

As the result of direction by staff received at yesterday's meeting, we hereby request that the Future Land Use Map of the City of Lake Geneva Comprehensive Plan be amended to change parcel number ZOP 00100 from Single Family-Urban to Institutional so that an off-site parking lot may be permitted on the property. We further ask that this be considered an emergency request to initiate an expedited review that will hopefully be completed within approximately two and one-half months. This will give us the opportunity to complete construction of the project prior to area asphalt plants closing for the season sometime this fall.

We shall also be submitting the necessary Planned Development applications and supporting documents in the near future for review by the staff, Plan Commission, and Common Council. Please do not hesitate to contact me or the school district's architect for this project, Bill Henry of Kehoe-Henry & Associates (262-723-4399) if you have any questions or require additional information.

Very truly yours,

A. Introduction

1. Our Services

. What is Humble B&B?

Humble B&B will be a short term lodging opportunity located in downtown Lake Geneva. Over the long-term we intend Humble B&B to become a highly recommended choice in Walworth County, WI for temporary lodging. We as new owners, intend to create a differentiated experience for our guests by capitalizing on the prime location of the traditional 2 story Victorian home with 2,754 square feet, housing four large guest rooms, one with a private bath downstairs, three upstairs with shared bath for rent, owners quarters in an upstairs apartment, spacious common areas and it's surrounding .24 acres of fenced in back yard, among the older established homes. It is located within walking distance of the downtown hub of activities and beach that make Lake Geneva a prime area for vacationers from the surrounding Midwest Region. The 4 Gables Home built in 1880 is steeped in history, which we intend to research and share with our guests.

. What do we plan to do?

Humble B&B will offer overnight or extended short term lodging for out of town & local guests that will include all the amenities of a relaxed, yet well-appointed home atmosphere including breakfast service in the morning, information regarding local attractions, dining and entertainment in the areas.

. What does Humble B&B offer their guests?

Humble B & B home was originally built in 1880 and is beautifully preserved and maintained with updated amenities in keeping with the style of the home.

We plan to create an idyllic "home away from home" environment, offer exceptional service, and introduce our patrons to the area and it's charms. The riches of the Walworth County have long drawn a significant number of tourists to the area as well as seasonal homeowners from surrounding cities. In addition to providing our guests with information about local attractions and activities, we plan to collaborate with the Chamber of Commerce, tour agencies and businesses throughout the area by offering packages with special rates and incentives. We intend to create a loyal customer base through advertising, personal contacts and client list. Expanding our exposure via the Internet, involvement in the local community and introducing the area to Humble B&B patrons that have not yet discovered this year-round paradise as well as those who have been coming to lake Geneva all their lives.

Amenities that go beyond the typical B&B will include:

- Complimentary cookies
- An extensive DVD & CD library for guest use
- Flat Screen TV's in each room
- Wifi Internet Access

- Complimentary coffee/teas/etc. located in common area, as well as bottled water, ice and a variety of grab & go snacks
- Complimentary toiletries
- Picnic baskets and coolers for beach/exploring excursions

2. The Company

. How do we plan to structure the business?

After possession and a brief period of becoming established as new ownership in the community, we, as proprietors, plan to diversify into offering packages that link our clientele with local businesses thus ensuring a steady flow of patrons (tourists and locals) through our doors.

Humble B&B business structure will be that of a Limited Liability Partnership in the name of Elizabeth J. & Jeffery P. Iverson. Both Elizabeth and Jeffery will reside on the property while managing and maintaining the business and satisfying bed & breakfast licensing requirements.

. What do we have to bring to the table?

Elizabeth has been employed by Max McGraw Wildlife Foundation in East Dundee, IL for 25 years planning and assisting with events for its 480+ members including corporate training meetings, charity functions, showers, weddings and holiday parties. Elizabeth has handled the details from the initial phone call/reservation through the planning process to being on site to make sure every facet of the event goes smoothly to processing the invoice for billing. The facility also houses 8 overnight rooms, a full kitchen & staff (which she oversees), meeting rooms and administrative offices. She has established a great rapport with the members and co-management of other departments.¹

Jeffery has spent the last 30 years in Management, Customer Service and Sales in both Retail & Restaurant establishments. He has knowledgeable skills that he uses to find out what the client's needs are and see that they are met. He has established a rapport with his customers that have had them following him from location to location over a span of years.

3. The Market

. How do we compare?

B&Bs, along with other short-term lodging in Walworth County and the popular Lake Geneva Area, have been a substantial part of the local tourism realm and has maintained its popularity even during the most recent downturn of the economy. Of the short-term lodgings in Walworth County, Humble B& B will establish itself, as a contender amongst the existing B&B's of which there are only a select few. Hotels/Motels constitute the largest percentage of rental properties surrounding Lake Geneva in terms of units.

. Who is our Customer?

The two primary customer segments are tourists from the surrounding 100-150 mile radius who traditionally prefer the cozy environment of B&Bs and local patrons who need the facilities for various celebrations, housing out of town family who travel for meetings, retreats and events. Additional guest will find us via an eye catching, informative, user-friendly web site. Increasing web presence on travel sites, commerce sites, social media & more, as well as one on one promotion with local business owners and mailings will provide additional exposure to potential customers for minimal advertising costs and nominal annual fees.

Tourists will want to explore the riches of Lake Geneva as well as surrounding Walworth County such as popular beaches, fine & casual dining, nearby wineries, horseback riding stables, spas, indoor & outdoor music venues, zip line adventures, farmers markets, antique & retail shopping venues as well as the many lakeside activities and boat rentals & tours.

B. Objectives

Become proprietors of Humble B&B offering 4 rentable overnight rooms with inclusive breakfast meal through bookings from personal clientele list, referrals, and local business partnerships

1. Demonstrate a minimum of 25% occupancy average throughout the remainder of 2015.
2. Increase income by 10% the first full year through community-based activities, incentives and referral packages.
3. Both Elizabeth and Jeff will supplement B&B revenue through employment outside of the Bed and Breakfast through local contacts.

C. Mission

The Mission of Humble B&B is to be among the best choice in Walworth County for temporary lodging by creating a comfortable relaxed environment for it's guests, capitalizing on the treasures that Walworth County has to offer it's tourists and local patrons year-round. Elizabeth and Jeffery intend to make Humble B&B more than a great bed and breakfast, they plan to create an environment of comfortable, lodging and attention to customer service that surpasses the standard fare for the immediate area that will keep them coming back for years to come.

Planned Development
Redevelopment of Sears Hometown building
351 Peller Road, Lake Geneva, WI

Written Description

The proposed redevelopment is located at 351 Peller Road, located on the Northeast corner of Peller Road and Highway 50. The adjacent parcels are currently occupied by Home Depot to the north and Lake Geneva Mobile to the east.

The proposed redevelopment, Shoppes on 50, will be an upscale retail center between approximately 7,300 SF and 10,800 SF (*please see the proposed plan and the alternate plan, contingent on DOT approval, submitted herein*) and will be anchored by Noodles & Company.

The redevelopment will include demolishing the current Sears Hometown building and redesigning of the site to include a newly constructed brick and masonry building with four sided architecture, decorative fencing wrapping a patio overlooking Highway 50 on the east corner of the building (and both the east and west corner on the alternate plan), a new pylon sign with a brick base to match the building, updated landscaping, as well as, improved grading, parking and overall traffic circulation within the site and to Peller Road, with two fully accessible driveways from Peller Road. The Tenants proposed for this redevelopment will provide additional services to the local community and seasonal population including upscale, national fast casual restaurants and other national retail Tenants.

The proposed Floor Area Ratio for the project will be 16.7% (18.9% alternate) of the site, which is below the maximum allowable of 30%. The Landscaped Surface Ratio for the site will also exceed the underlying zoning requirements with a ratio of 28.9% (27.6% alternate).

The buildings will be constructed in a manner that is consistent with similar retail buildings constructed along Edwards Blvd in the past few years. The primary exterior materials will be split faced architectural masonry and brick with EFIS (synthetic stucco) in smaller areas for signage and decorative building lighting. Architectural elements will be located on all sides of the building with the entrances located on the north side of the building with Tenant prototypical design elements incorporated into the overall design.

The development will be in compliance with the majority of the zoning standards required by the underlying zoning district of Planned Business. A Planned Development is proposed to obtain the following exceptions for the proposed option:

1. The applicant requests that the building setback be reduced from 40' along the street to 5'. This exception will allow the proposed site to be constructed to meet the remainder of the applicable zoning standards. The applicant feels that the presence of the DOT vision triangle in this location provides adequate separation from the existing roadway.

The development will be in compliance with the majority of the zoning standards required by the underlying zoning district of Planned Business. A Planned Development is proposed to obtain the following exceptions for the Alternate Option:

1. The applicant requests that the drive aisles be reduced to 24' in width in lieu of the zoning code required 26' in width at all locations. This exception will still allow for ample maneuvering room within the parking area while allowing for more green space within the site. Perhaps more importantly, it will allow the building to be more centrally located on the site, further away from the property lines to allow for optimal site grading and drainage.
2. The applicant requests that the building setback be reduced from 40' along the south property line to 18' and along the west property line from 40' to 18'. This exception will allow the proposed site to be constructed to meet the remainder of the zoning standards.
3. The applicant requests that the pavement setback be reduced from 10' along the south property line to 3'. This exception will allow a patio to be placed off the back of the proposed building while meeting the remainder of the zoning standards.

Exemptions

Below are written descriptions of the requested exemptions in the order requested for the proposed option:

- 1: Land Use Exemptions: None
- 2: Density and Intensity Exemptions: None
- 3: Bulk Exemptions:
 - a: We would like to reduce the building setback from 40' along the street to 5'.
- 4: Landscaping exceptions: None
- 5: Parking and Loading Requirements Exceptions: None

Below are written descriptions of the requested exemptions in the order requested for the Alternative Option:

- 1: Land Use Exemptions: None
- 2: Density and Intensity Exemptions: None

3: Bulk Exemptions:

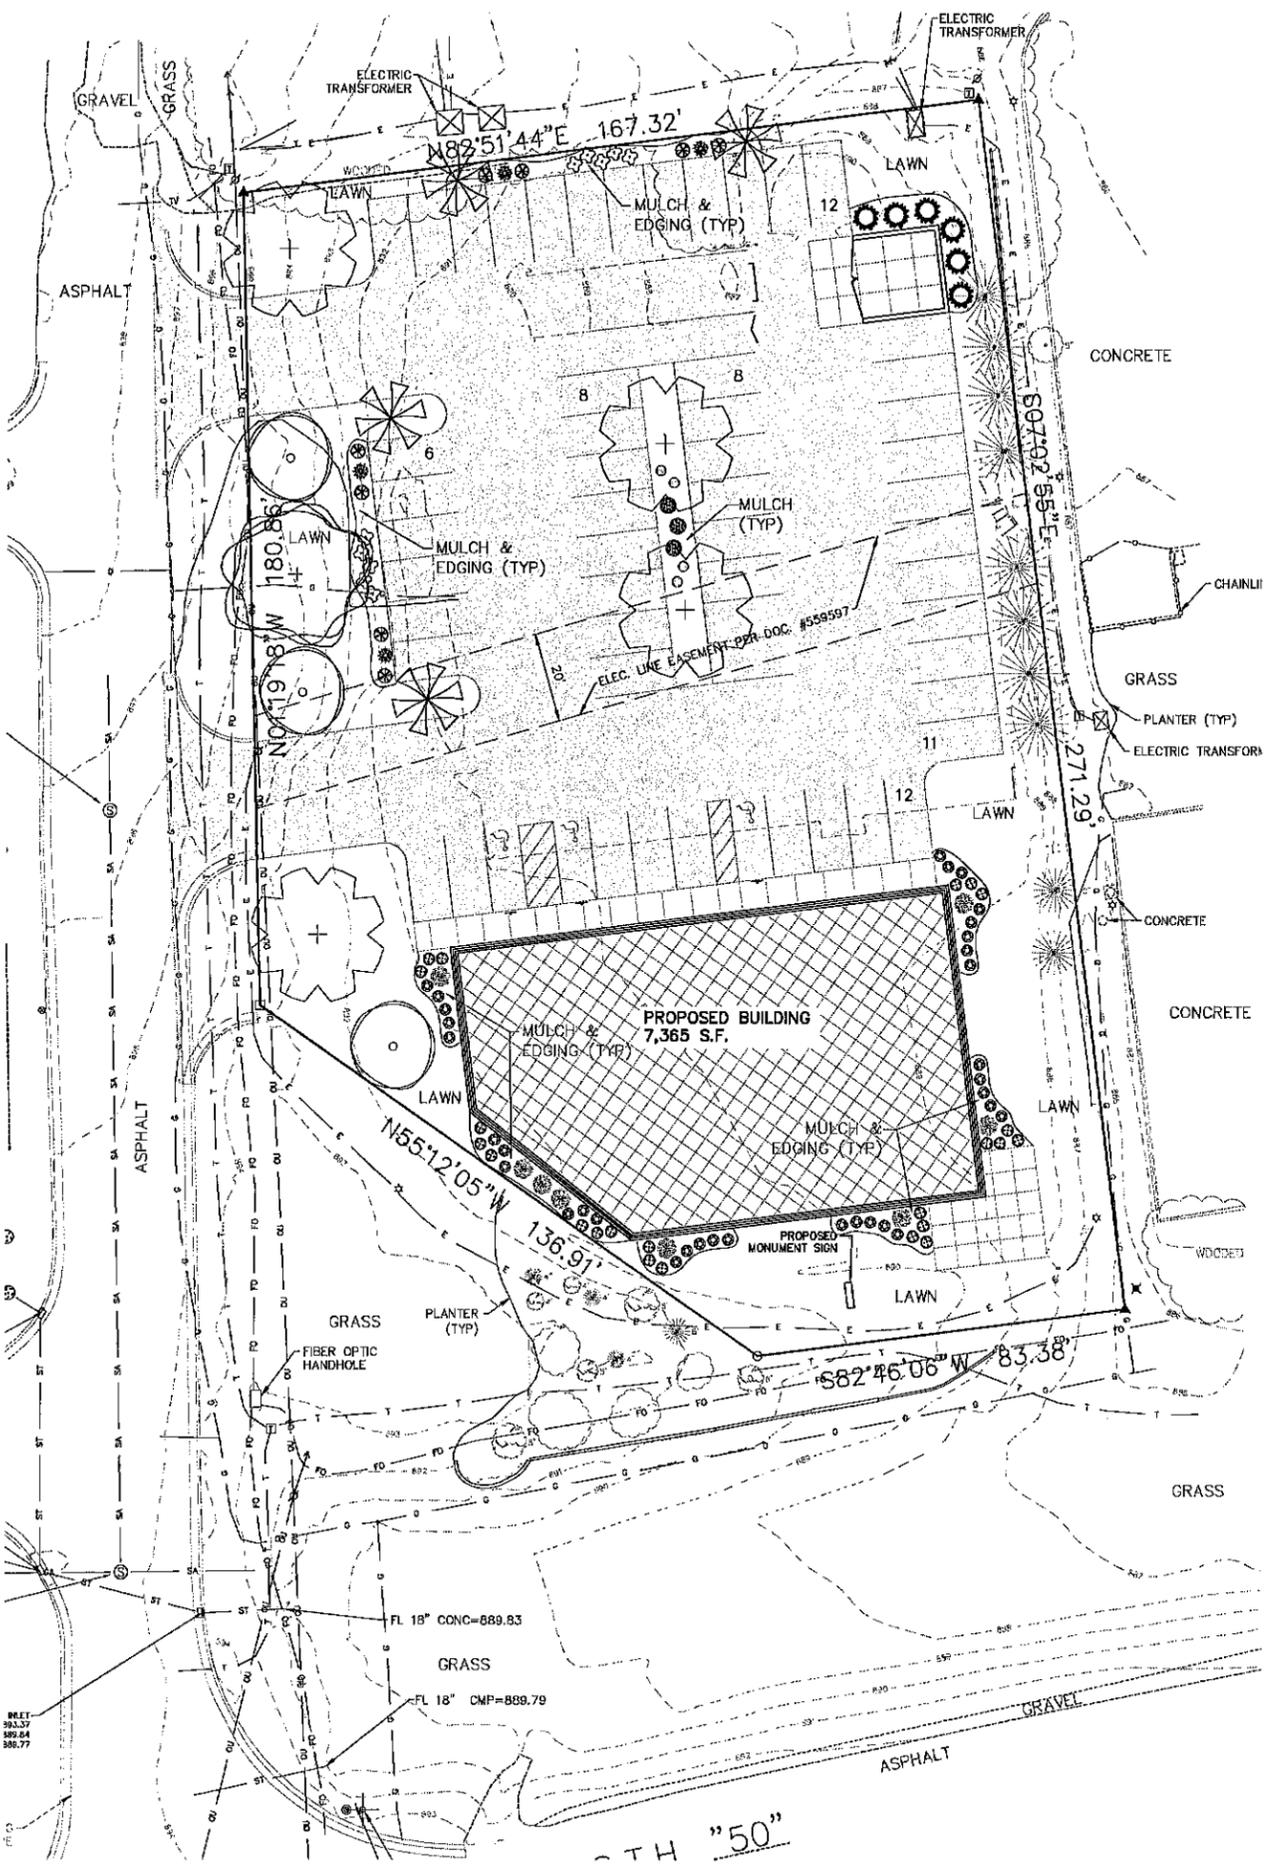

a: We would like to reduce the building setback from 40' along the south property line to 18' and along the west property line from 40' to 18'.

b: We would like to reduce the paving setback along the south property line from 10' to 3'.

4: Landscaping exceptions: None

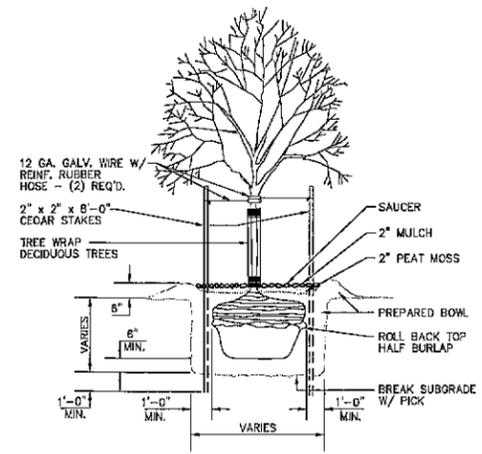

5: Parking and Loading Requirements Exceptions:

a: We would like to reduce the drive aisle within the parking lots to 24' in width at all locations.

Subject: Zoning Map amendment and GDP for Core Commercial, Inc.

We have completed a review of Zoning Map Amendment for Planned Development, including General Development Plan (PD/GDP). Our review was conducted to determine compliance with the City of Lake Geneva Municipal Code and good engineering practices. The submittal dated July 15, 2015 was reviewed.

Site Plan Comments:

- The applicant states in their submittal that the impervious area of the site may be reduced (depending on final alternate) thus reducing storm water runoff. Ordinance requires storm water management for a development that exceeds 0.5 acres of impervious surface and the GDP does not require submittal of storm water calculations. The drainage of the site currently leaves the site to the east and works itself to the Home Depot regional pond. The storm water will be reviewed in detail with the PIP submittal.
- It appears that a portion of the Highway 50 Right-of-way is also providing for some storm water storage. The development plans may alter the storm water runoff and change the existing storage requirements. As part of the PIP the applicant will submit a grading plan, in accordance with Section 98-908, 3 (e) to demonstrate where, and at what rate, their runoff is being discharged.
- The requested reduction in front yard setback should not impact the vision triangle for the intersection Of State Highway 50 and Peller Road.
- The parking lot does not propose any curb & gutter; and storm sewer is also not proposed as part of the improvements. The applicant will be required to demonstrate through detailed grading and drainage plans that site will not have an adverse effect on the adjacent properties.
- The site was reviewed for conformance to engineering standards and we refer to the city zoning administrator for compliance with zoning requirements.
- The parking lot is proposed as asphalt and refers to a typical section. Please provide the typical asphalt section in the plans. Asphalt pavement and base thickness shall conform to the Lake Geneva Standards for commercial development.

We recommend that the application for the Zoning amendment and GDP be approved contingent on our above comments. The submittal has provided adequate information to demonstrate that the site will be able to comply with current City requirements for general development. Detailed Storm water and engineering will be required for the Precise Implementation Plan (PIP).

ADDENDUM "A"
TO

CITY OF LAKE GENEVA
APPLICATION FOR AMENDMENT TO THE COMPREHENSIVE PLAN

PART D:

1. How will the proposed amendment to the Comprehensive Plan benefit the public, City and/or surrounding neighbors or neighborhoods?

At the present time the property presents to tourists and other members of the public entering the City along Highway 50 (the main artery to downtown and through the City) an unattractive view consisting of weeds, grass that is only occasionally mowed and trees that are dead, dying or not maintained. This proposed use will replace that view with an attractive buffer of landscaping and a view of a lake, attractive residential and some limited commercial use adjoining other commercial uses in the City.

Although the project will be affordable to local residents with children, we anticipate that its occupants will be mostly local retirees or out-of-state residents seeking a second or retirement home with lake amenities which will be priced within the means of many more individuals than those who can afford properties on Geneva Lake. Accordingly, while adding real estate tax revenue to the City the intended use will not significantly increase the number of students in the local school districts. Because the development provides its own lake amenities, it will not generate any significant demand or impact on Geneva Lake.

The project will also retain open space on its north half, as well as the opportunity to enhance public recreation by completing the White River Trail through the City of Lake Geneva to connect with other portions of the trail outside the City limits.

2. How does the request advance the Comprehensive Plan vision, and the goals, objectives and policies for the chapter within which the amendment affects?

Because it is a significant part of the City of Lake Geneva there are a number of direct references to the Hillmoor property in the City's Comprehensive Plan. Page 10 of the Comprehensive Plan under "Opportunities" lists:

"Redevelop Hillmoor Golf Course (potential new park/open space facility or traditional neighborhood development)."

This proposal accomplishes both: a) neighborhood development to the south half of the property suitable for development with direct access to major traffic arteries and adjacent to similar existing development and b) recreation/open space on the north half of the property suited for that use.

There are several references in the Comprehensive Plan to desire of residents to maintain Hillmoor as a golf course or even having the City purchase Hillmoor and operate it as a municipal golf course. That would be contrary to the other goal in the plan of redeveloping it as a neighborhood. As more completely described below, Hillmoor has not been utilized as a golf course for a number of years and has become a public eyesore along the major entryway into the City.

Wetlands to the north of Hillmoor Golf Course are mentioned as a significant wetland area on page 28 of the Comprehensive Plan.

There are frequent references in the Comprehensive Plan to maintaining open space, including especially wetlands and other areas still in a natural state, and this proposal accomplishes that for the approximately half of the property already in such uses.

The Plan also urges development of trails, parks and waterfront areas, and it is likely that an extension of the White River Trail and possible public use of portions of the property will be discussed as part of the development process. Specific desires of the City for public use are unknown at this time.

The Comprehensive Plan also encourages identification and rationalization of major roads and highways for accesses to and from the City. The location of the Hillmoor property on Highway 50 very close to the Highway 12 "freeway" system will minimize disruption caused by weekend traffic resulting from not only tourists, but individuals coming to and from secondary residences. Traffic will flow to and from Edwards Boulevard and from there to the Highway 120, Highway 50 or Highway 12 main arteries.

Another objective of the Comprehensive Plan is to preserve the wetland to the north of the Hillmoor Golf Course (see Page 28) and at the eastern most edge of the City, and this proposal will accomplish that as well. Preservation of floodplains, drainage ways, wetlands, steep slopes, woodland areas and wildlife habitat are also listed as objectives of the Comprehensive Plan on page 30. The Comprehensive Plan identifies these areas as playing significant roles in maintaining the quality of groundwater and surface water and to provide valuable habitats for fish, birds and other wildlife.

The Comprehensive Plan also encourages development of "infill" areas, areas already approved for development and areas closer to the center of town over outlying areas on the edges of the City proper or surrounding areas of the Towns which have not yet been annexed. Although one might argue that Hillmoor is too large to be considered an "infill" property, the chart on page 50 of the Comprehensive Plan shows that Hillmoor was approved for 275 residential units on March 13, 2006, as well as three non-residential units on June 16, 2006. Subsequent to approval of the Comprehensive Plan, the City has approved and considerable retail commercial areas have been constructed adjoining Hillmoor along Edwards Boulevard which is farther from the center of the City than Hillmoor.

Although 275 residential units and some commercial development was approved on Hillmoor in 2006, timely construction was never commenced because of the decline of the general economy and real estate in particular, and therefore its zoning has reverted to Rural Holding after previously having been rezoned to Planned Development. Hillmoor is now effectively surrounded by residential property to the west and commercial property to the east, except for the property on the north which was not proposed for development nor is suited for development.

3. As it affects the amendment request, what circumstances have changed or what new information is now available since the original adoption of the City's Comprehensive Plan, or in the case of a previously requested amendment, what circumstances have changed since the last amendment process?

On page 91 of the 2011 Comprehensive Plan it states in reference to Hillmoor Golf Club: "The future of the Golf Course is uncertain." The future is more certain now, although the future is not as a golf course.

The major change is the fact that the golf course has not been used as one or maintained as one for a number of years and to create one now or in the future would be basically starting from scratch. In addition, the clubhouse, never in good condition, has been demolished and would need to be replaced. The cost of replacing the golf course and clubhouse would be in the millions in addition to the cost of the land.

Jim Gaugert, a former owner of the golf course and strong golfing advocate, has recently and publicly stated before the City Plan Commission that he has concluded with great regret that Hillmoor no longer has a future as a golf course because of the competition of the many excellent golf courses surrounding Lake Geneva, as well as the cost of restoring it to golf course use. This is also recognized by the City Council which recently declined to include acquiring Hillmoor Golf Course as one of the possible uses of TIF funding before the TIF District is closed. If acquiring and/or maintaining a golf course cannot be done with TIF funding, it certainly won't be done with funds acquired from raising taxes on local residential or commercial real estate.

Further, the City has terminated the lease of certain City-owned property formerly leased as part of Hillmoor Golf Club, and has converted or designated the land to other recreational uses.

Therefore, the circumstances that have changed since the original adoption of the Comprehensive Plan is that Hillmoor is no longer a golf course, competition is such that creating or maintaining a new golf course is not financially feasible, and the City has justifiably declined the opportunity to purchase Hillmoor to return it to a public or private golf course.

4. Is there any additional information that the City of Lake Geneva should consider in its evaluation of this request?

The City's image has taken a serious blow over the last several years because the main entryway for visitors into the City passes right by Hillmoor Golf Club. It is infrequently mowed and the views are usually of dried grass and trees which are dead or dying and not timely removed. As has been commented by City residents at public meetings on a number of occasions, many nonresidents assume that the City owns the golf course even though that was only true for a part of it not visible from Highway 50. Thus, the view along this prime entryway also reflects on the City as an assumed owner of the property.

The property has been foreclosed and has been on the market for years with no other development proposal being presented. No one has stepped forward with a concrete proposal to restore it or maintain it as a golf course. Who knows how long it will take to have another suitable proposal made for use of the property in this economic climate?

The City of Lake Geneva had the possibility of purchasing the property through use of TIF funds, which would have left it free of debt, but the City (probably wisely) declined the possibility of either operating it with City personnel or renting it to a private operator. Several million dollars would need to be spent to reopen Hillmoor as a golf course. No private operator has stepped forward and offered to lease the property from the City for use as a golf course if the City did purchase it for that use.

The current developer proposes to create a lake as an amenity to attract those who wish a water-oriented property but who cannot afford to purchase on or near Geneva Lake. Fewer residences are now being proposed than in the approved but never built 2006 development which kept part of Hillmoor as a golf course. Although the present developer does not know what form or format is desired by the City, the possibility exists to extend the White River Trail through the property, create other recreational uses, and protect or enhance significant open space and wildlife habitat in the center of the City, all at minimal cost to the City. All these values are recommended by the Comprehensive Plan as a result of the public input into the Plan.

ADDENDUM "B"
TO

CITY OF LAKE GENEVA
APPLICATION FOR AMENDMENT TO THE COMPREHENSIVE PLAN

PART E: Please describe below (or on a separate sheet) what your specific request for a Comprehensive Plan amendment is. Provide any necessary maps, charts, or other supporting data as needed, including conceptual development plans (if applicable). Applicant also **MUST ATTACH** a redline/strikeout of the proposed text amendment and/or a clearly labeled and marked-up version of the proposed Map Amendment.

The appropriate future land use category for the portion of the property proposed for development (See Exhibit "A") is "Planned Mixed Use." "Planned Neighborhood" was considered, but the text of the Comprehensive Plan (Page 59) states in part:

"A minimum of 60 percent of all new dwelling units in each Planned Neighborhood should be single family detached residential dwellings."

This proposal includes less than 50% of the dwelling units to be single family detached.

"Planned Business" is inappropriate because this development proposal is primarily residential.

"Neighborhood Mixed Use" was also considered, but the Comprehensive Plan states (Page 61) that this use is intended to stabilize the land uses and character of "existing neighborhoods" that are not characterized by a homogeneous land use pattern and that such use is generally mapped in "established neighborhoods." Hillmoor is vacant land at this time.

The most appropriate development category appears to be "Planned Mixed Use" which is intended to facilitate a "carefully controlled mix of commercial and residential uses" tied to "City approval of a specific plan for the project." See page 62 of Comprehensive Plan. This language indicates that it was intended to be applied to an undeveloped parcel of land where there is no existing neighborhood and a controlled and specific plan can be approved in advance of any development.

Although Map 5a to the Comprehensive Plan (see copy attached) indicates in the legend that Planned Mixed Use may include a mix including "Multi-Family Residential," the text on page 62 for Planned Mixed Use states that such category "advises a carefully designed blend of Mixed Residential, Planned Office, Planned Business." and other uses. Although the term "Mixed Residential" is not defined, the text also suggests that a mix including MR zoning districts is appropriate for zoning categories. The zoning text for the only Multi-Family Residential District (MR-8) states in part:

“The land use standards for this district permit single-family detached, twin house/duplex, two flats, townhouses, multiplexes and apartments permitted by right and related institutional land uses.” (See Section 98-105(2)(e)(1) of Zoning Ordinance). (Underlining supplied).

Although single family lots of 9,000 square feet are allowed by right in the MR-8 zoning district, and the proposed single family lots in this project are either 10,500 square feet or 12,000 square feet, lots larger than 9,000 square feet are not prohibited. The significance is that the proposed single family residences, townhouses and multi-family buildings are all permitted in the MR-8 zoning district, without limitations as to the percentage of the mix.

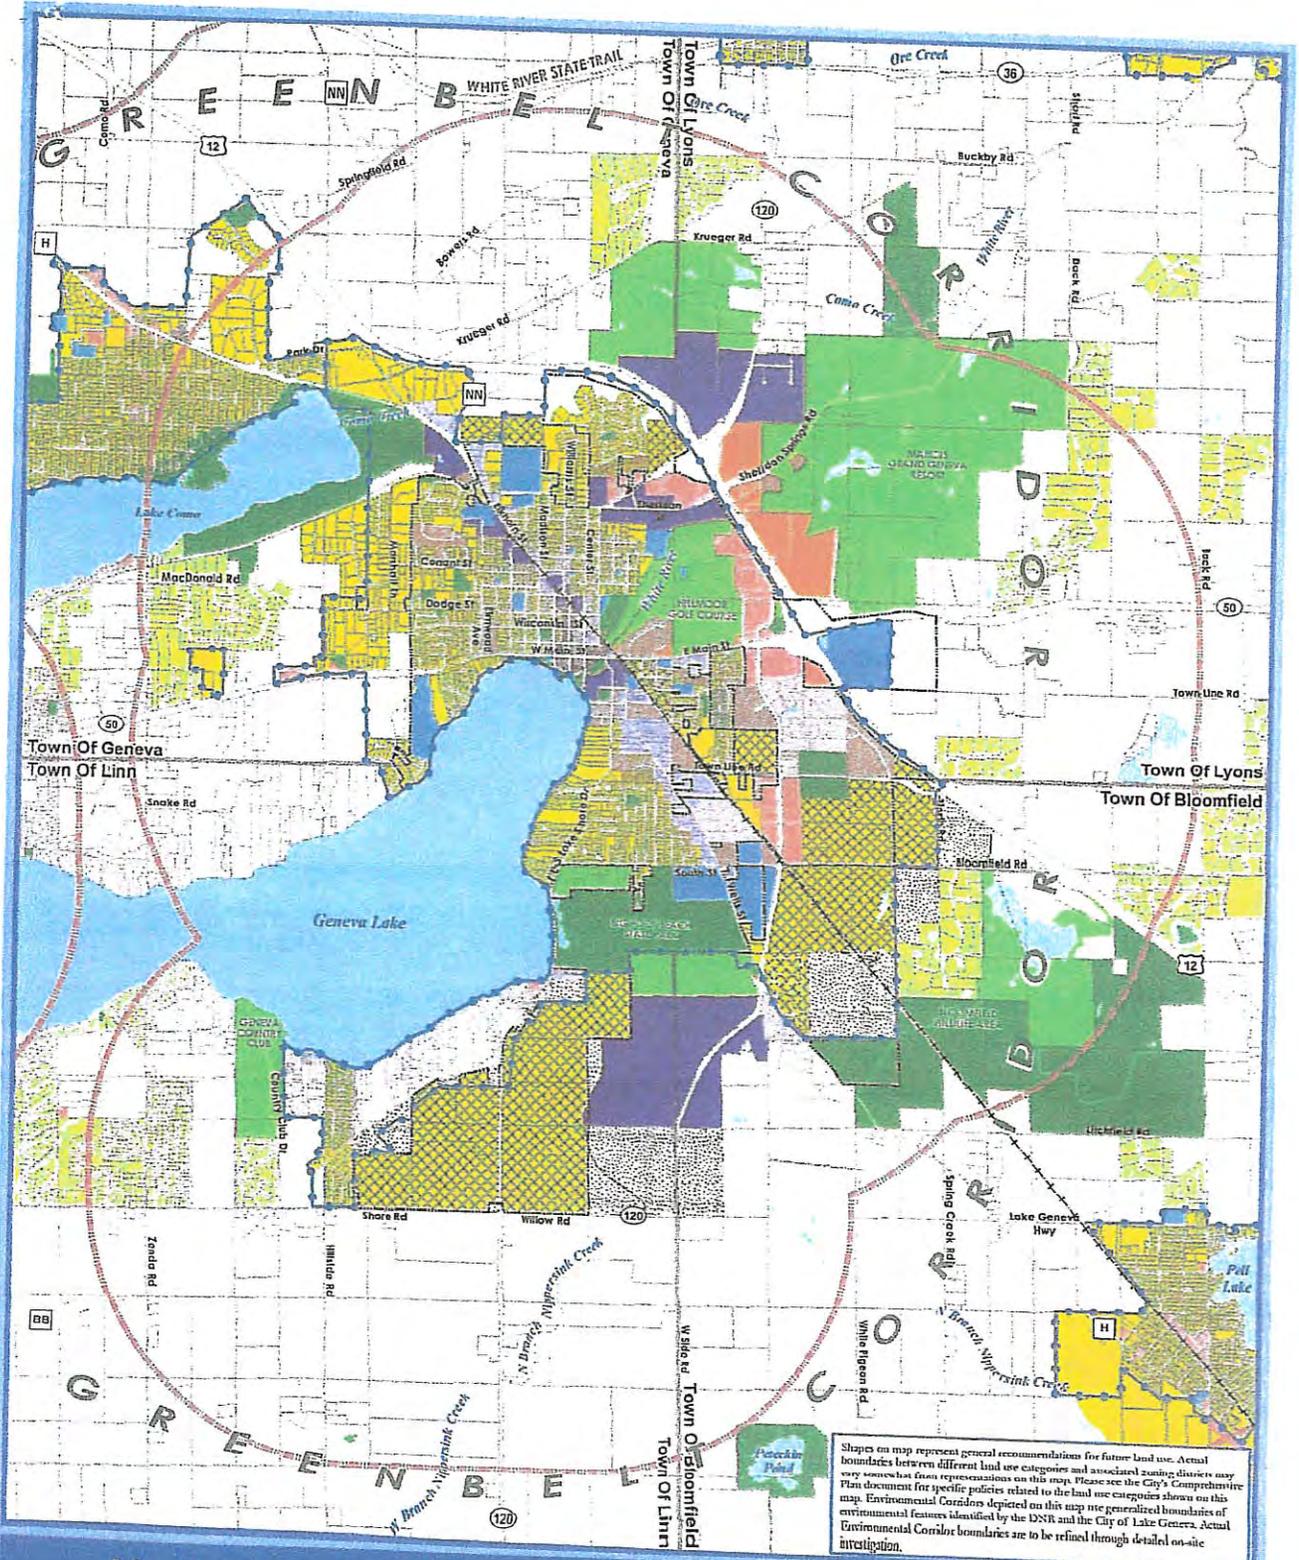

Notwithstanding our reference to such zoning category in defining the term “Mixed Residential” in the Comprehensive Plan, the most appropriate zoning category for this project would be the Planned Development (PD) District because it permits flexible zoning treatment.

In addition, certain text amendments might be necessary consistent with this development request. The only text amendment we are aware of at this time is an amendment to delete the statement on page 66 of the Comprehensive Plan which lists as a policy or program under “Private Recreation”:

“Support Private Recreation uses, including Hillmore (sic) Golf Course, in the Lake Geneva area as a critical component of the City’s resort and recreation identity.”

This statement is contradicted on page 10 of the Comprehensive Plan where it lists as an “opportunity” redevelopment of Hillmoor Golf Course as a potential new park/open space facility or traditional neighborhood development. The same page lists as an “opportunity” expanding recreation, cultural activities, green space and trails. All these goals can be accomplished at Hillmoor by development of the south half of the property which is high and dry and utilizing the northern half of the property for open space, green space, expansion of recreation and trails.

Attached Exhibit “A” includes the outlines of the Hillmoor property proposed to be changed from Private Recreation Facilities to Planned Mixed Use.

Shapes on map represent general recommendations for future land use. Actual boundaries between different land use categories and associated zoning districts may vary somewhat from representations on this map. Please see the City's Comprehensive Plan document for specific policies related to the land use categories shown on this map. Environmental Corridors depicted on this map use generalized boundaries of environmental features identified by the DNR and the City of Lake Geneva. Actual Environmental Corridor boundaries are to be refined through detailed on-site investigation.
