- _____ (e) Written justification for the requested variance consisting of the reasons why the Applicant believes the proposed variance is appropriate, particularly as evidenced by compliance with the standards set out Section 98-910(4)(c)1.-6. (See below)

III. JUSTIFICATION OF THE PROPOSED VARIANCE

1. What exceptional or extraordinary circumstances or special factors are present which apply only to the subject property? The response to this question shall clearly indicate how the subject property contains factors which are not present on other properties in the same zoning district.

a. Describe the hardship or difficulty that is peculiar to the subject property and different from that of other properties, and not one which affects all properties similarly. Such a hardship or difficulty shall have arisen because of the unusual shape of the original acreage parcel; unusual topography or elevation; or because the property was created before the passage of the current, applicable zoning regulations, and is not economically suitable for a permitted use or will not accommodate a structure of reasonable design for a permitted use if all area, yard, green space, and setback requirements are observed;

NOTE:

- *Loss of profit or pecuniary hardship shall not, in and of itself, be grounds for a variance;
- *Self-imposed hardship shall not be grounds for a variance. Reductions resulting from the sale of portions of a property reducing the remainder of said property below buildable size or cutting-off existing access to a public right-of-way or deed restrictions imposed by the owner's predecessor in title are considered to be such self-imposed hardships;
- *Violations by, or variances granted to, neighboring properties shall not justify a variance;
- *The alleged hardship shall not be one that would have existed in the absence of a zoning ordinance. (For example, if a lot were unbuildable because of topography in the absence of any or all setback requirements.)

2. In what manner do the factors identified in 1., above, prohibit the development of the subject property in a manner similar to that of other properties under the same zoning district? The response to this question shall clearly indicate how the requested variance is essential to make the subject property developable so that property rights enjoyed by the owners of similar properties can be enjoyed by the owners of the subject property.
