Approve minutes from previous meeting

Minutes of the September meeting were read by President Kirchberg via phone.

Minutes approved upon a motion by Joe Esposito, seconded by Constance Kosowski.

Motion carried unanimously.

Comments from the Public

John Swanson again expressed his concern on the planting of trees in business parks and the cities obligation.

Arborist Report – Jon Foster reported that the Ginkgo trees on the east side of Broad street (100 and 200 blocks) have been removed. 11 Cleveland Select flowering pear trees are to be planted in this area for replacement this week. Tim Dunn also reported the request for \$20,000 to cover future tree plantings. Jon Foster also reported the need for removal of approximately 125 trees.

Arborist, Jon Foster also is going to do some research on the thought of planting bare root trees versus the expensive balled and burlaped, possibly doing a mix of both. This would also relieve some of the landscaper costs.

Next meeting scheduled for Wednesday, January, 23

Kirchberg motion to adjourn at 6:40 p.m, second by Esposito. Motion carried unanimously.
